

ALT3

Product Sheet

Last Updated: 04/06/2021 11:40 AM (EDT)

Author: Darrick Carter

POC and Institution

POC Name

Darrick Carter

POC Title

Head of Operations

POC Email

darrick.carter@pailifesciences.com

POC Institution

PAI Life Sciences

Institution Holds Intellectual Property

Yes

Vaccine Ontology Identifier

Initial Details

Adjuvant Name

Alt3

Chemical Nature

• **Combination adjuvant-
Alhydrogel with TLR3 agonist**

Primary Receptor

• **TLR**

Secondary Receptor

• **TLR3**

Mechanism of Action

**TLR3 agonist plus potential
inflammasome**

Immune Profile Induced

Mixed Th1/Th2

Drug Master File NIAID Support

No

Yes

Other Features/Characteristics

Stability Information

At least 3 months at 2-8 degrees C

Storage Information

2-8 degrees C

In Vivo Use (Preclinical)

Is there an associated
publication?

No

PubMedID

Disease Area/Pathogen

Bacteria

Parent Organism

**Mycobacterium tuberculosis
complex**

Antigen

Recombinant protein

Immunization Route

IM

Readout

• **Immunogenicity
(serology)**

Host Species

Mouse-C57BL/6

Were PK/Toxicology studies conducted?

No

Product Grade and Formulation(s)

Product Grade

Research-grade only

Formulation(s)

Bedside mixing with antigen possible?

Yes

Also used in combination adjuvant-formulation?

No

Clinical

Not evaluated in humans yet

Additional Comments
